## Описание:

A small complex of villas for two families is comfortably located in the Iskele area, dividing approximately the same distance between the center of the settlement and the seashore. The location and design of the triplex villas is a feature of this project, as the villas are ideal for holiday, rental or permanent residence. These semi-detached villas in Iskele are an excellent choice for those looking for a tranquil lifestyle by the sea (800 meters from the sea) with elements of luxury and privacy, at the same time with all amenities and infrastructure nearby. The prestigious and convenient location allows you to get 45 minutes to the airport, 15 minutes to the city center of Famagusta. And even if you decide to send your children to one of the schools in Famagusta, the school bus will take the children along the big new road in just a few minutes. Who would prefer a local kindergarten or school, they are nearby, a few minutes from your home. The planned construction of a new university in Iskele will add value to your investment! In this project, everything is thought out to the smallest detail.
