Описание:

The restaurant is located in the old port of Kyrenia, in a place that guarantees high traffic for foreigners who come to the old port of the city to see this unique place where private beautiful yachts are located, where there is a museum of shipwrecks, an old fortress,...

The restaurant offers perhaps the largest area - the kitchen and indoor restaurant are located on one side of the promenade, and on the other, near the sea - large open areas where tourists and locals like to sit and eat fresh fish or just drink drinks while looking at the sea and stunning boats and yachts.
